Professional Summary

Computer Science undergraduate at Anurag University (CGPA: 8.84/10) with strong foundation in Data Structures, Algorithms, Database Management Systems, and Object-Oriented Programming. Built full-stack applications using the MERN stack and implemented RESTful APIs and database-backed systems. Interested in Artificial Intelligence and research-oriented internships involving machine learning, intelligent systems, and software engineering.

Education

Anurag University, Hyderabad

B.Tech – Computer Science & Engineering

2023 – Present

CGPA: 8.84/10

Sri Chaitanya Junior Kalasa, Hyderabad

Intermediate – MPC

2021–2023

82.1%

Johnson Grammar School, Hyderabad

10th Grade

2020–2021

87%

Projects

- **Udhaar Khata – Digital Credit Management System (MERN Stack)** Developed a full-stack credit tracking application using **MongoDB, Express.js, React.js, and Node.js**. Implemented secure user authentication, customer management, and transaction tracking with **CRUD operations**. Built features for **debt recording, payment history, balance calculation, and dashboard analytics**, enabling efficient management of customer credit records.
GitHub: github.com/varshahanji13/Udhaar-Khata
- **Anurag Blog App (MERN Stack)** – Developed a dynamic blogging platform using **MongoDB, Express.js, React.js, and Node.js**. Enabled users to **create, update, and manage blog posts** with secure backend integration. Implemented structured APIs and responsive UI to support seamless **content publishing and editing workflows**. **GitHub:** github.com/varshahanji13/Udhaar-Khata
- **Shubhrasetu – Women Safety System** Deployed an emergency alert and safe-route suggestion system with **real-time monitoring**. Integrated instant alert mechanisms for emergency response. Achieved **1st place among 50+ teams** in the **ANUSF 3.0 Hackathon**.
- **Auralife – Mental Health Platform** Created a wellness-focused platform with **3+ modules** including journaling, emotional tracking, and guided yoga sessions.
- **Mantra – Zero-Cost Literary Publishing Platform** Engineered a community-driven portal supporting content publishing, reader interaction, and author engagement across multiple user roles.

Technical Skills

Languages: Python, Java, C, JavaScript, R

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Core Concepts: Data Structures & Algorithms, DBMS, OOP

Developer Tools: Git, GitHub, Postman, VS Code

Other: Generative AI (GPT Models), Prompt Engineering

Internships/Work Experience

- **Software Development Intern – Blue Stock Company (Remote)** Contributed to application feature development and backend logic creation. Collaborated with the development team on debugging processes, system architecture understanding, and performance optimization.
- **Networking Intern – CISCO AICTE Virtual Internship** Completed structured training in networking fundamentals including routing, switching, IP addressing, and network security concepts. Performed hands-on simulations involving network configuration and troubleshooting using virtual lab environments.

Certifications

IUCEE – Generative AI For All

CISCO – Networking Essentials, Operating Systems

NPTEL – Data Structures & Algorithms with Python

Google Cloud – Machine Learning & AI

Udemy – Java for Beginners

Achievements and Awards

- **ANUSF 3.0 Hackathon Winner** – Designed and developed **Shubhresetu**, a women-safety and legal-awareness platform with real-time emergency response features.
- **PyChamp Finalist** – Excelled in the university-level PyChamp Python competition by securing finalist placement; optimized code to reduce execution time by 15% versus the average contestant, underscoring abilities in algorithmic efficiency.
- **Business Intelligence Club Member** – Orchestrated three data analytics workshops for the Business Intelligence Club, improving participant understanding of data visualization tools by 20%, based on pre- and post-session surveys.
- **IANE and InnoQuest 3.0 Participant** – Participated in innovation-driven technical competitions.
